Journal of Hydrology

Contents of Volume 171

Vol. 171 Nos. 1–2 **September 1995**

Research Papers

Hydrological and environmental impact of earthworm depletion by the New Zealand flatworm (*Artioposthia triangulata*)
A.H. Haria 1

The effect of carbonates and gypsum precipitation in the root zone on the chemical composition of groundwater
M. Zilberbrand 5

The tipping bucket equations as a model for macropore flow
S.H. Emerman 23

Spatial variation in evapotranspiration and the influence of land use on catchment hydrology
S.M. Dunn and R. Mackay 49

Flood routing in channels with flood plains
R.S.M. Mizanur Rashid and M. Hanif Chaudhry 75

Water depths at the upper boundary for overland flow on small gradients
W.H. van der Molen, P.J.J.F. Torfs and J.L.M.P. de Lima 93

Increased leaching of nitrate at two forested catchments in Finland over a period of 25 years
A. Lepistö 103

A numerical model for the movement of H_2O, $H_2{}^{18}O$, and ^2HHO in the unsaturated zone
A.-R.M. Shurbaji and F.M. Phillips 125

Application of a numerical model for simulating water flow, isotope transport, and heat transfer in the unsaturated zone
A.-R.M. Shurbaji, F.M. Phillips, A.R. Campbell and R.G. Knowlton 143

The effects of shaft excavation experiment on the hydrology of the Tono research field, Japan
K. Yanagizawa, H. Imai, K. Furuya and M. Nishigaki 165

Discussions

A formula for computation of time-varying recharge of groundwater — Comment
C.P. Kim and M.F.P. Bierkens 191

A formula for computation of time-varying recharge of groundwater — Reply
N. Su 195

Book Reviews

Biogeochemistry of Small Catchments: A Tool for Environmental Research, by B. Modran and J. Cerni (Editors) – M. Hornung 205

Statistical Methods for Groundwater Monitoring, by R.D. Gibbons — R.J. Gilliom 208

Advances in Porous Media, Volume 2, by M. Yavuz Corapcioglu (Editor) — R. van Genuchten 209

River Mixing, by J.C. Rutherford — R.A. Denton 211

Corrigendum 213

Announcement 215

Vol. 171 Nos. 3–4 **October 1995**

Special Issue: Groundwater Sampling

Preface 217
Introduction 219
Development and testing of active groundwater samplers
B. Nilsson, R. Jakobsen and L.J. Andersen 223
Development and testing of multiport sock samplers for groundwater
M. Schirmer, I. Jones, G. Teutsch and D.N. Lerner 239
Field trials of active and multi-port sock samplers in gravel-packed wells
B. Nilsson, L. Luckner and M. Schirmer 259
Level-determined sampling in an uncased borehole
I. Jones and D.N. Lerner 291
Numerical simulation of field methods for estimating hydraulic conductivity and concentration profiles
V. Kaleris, C. Hadjitheodorou and A.C. Demetracopoulos 319
Recommendations for level-determined sampling in wells
D.N. Lerner and G. Teutsch 355
